London, June 28th.—England's neutrality in the existing war is now considered absolutely assured so long as Bussia keeps her pledges not to interfere with British Indian interests or routes. It is also assumed here that Bussia will demand, as a condition of peace, the cession of Servia and Bosnia to Austria, a portion of Armenian to the Char, and the Austria, a portion of Armenian to the Czar, and the cassion of Bulgaria to Roumania is to be expected. These two will be made independent States, to hold the mouth of the Banube under international guarantees, as Belgum holds the mouth of the Rhire. Germany probably will not object to these arrangements; but the only thing apparently cartain is, that the contributed Powers arranged to action the property of the contributed Powers arranged to action the contributed Powers arranged to act the contributed Powers arranged to act the contributed Powers are the Cassic works, and the rendition has been in a style classic works, and the rendition has been in a style the Continental Powers expect to settle the new boundaries, without regard to England, who is in such a position that her diplomacy is practically powerless to affect the question. LAHAINA LOOKING UP AS A PORT. - The schooner Aurora, from Port Gamble, loaded with lumber for the Lahaina Store, is now discharging cargo. The bark Ocean Gem, from Sydney, discharged last week a cargo of coal at that port; and as the whaling bark Osmanli recruited there this Spring, and as several whale ships are expected there in the Fall, we may truly say that the late deserted port of Labains is looking up, and her quiet streets may

"KILAUEA WATER."-The indetatigable comounder of "Magic Cream," has lately returned from the island of Hawali and the volcano, and under the inspirations drawn from that abode of the fiery goddess, he has got up a preparation which he styles "Kilanea Water," and which, if it possesses a tithe of the potency of the fluid in which Madame Pele takes her daily bath, we will guarantee to "knock spots" out of anything to
